NEOS

NEOS - design your wellness

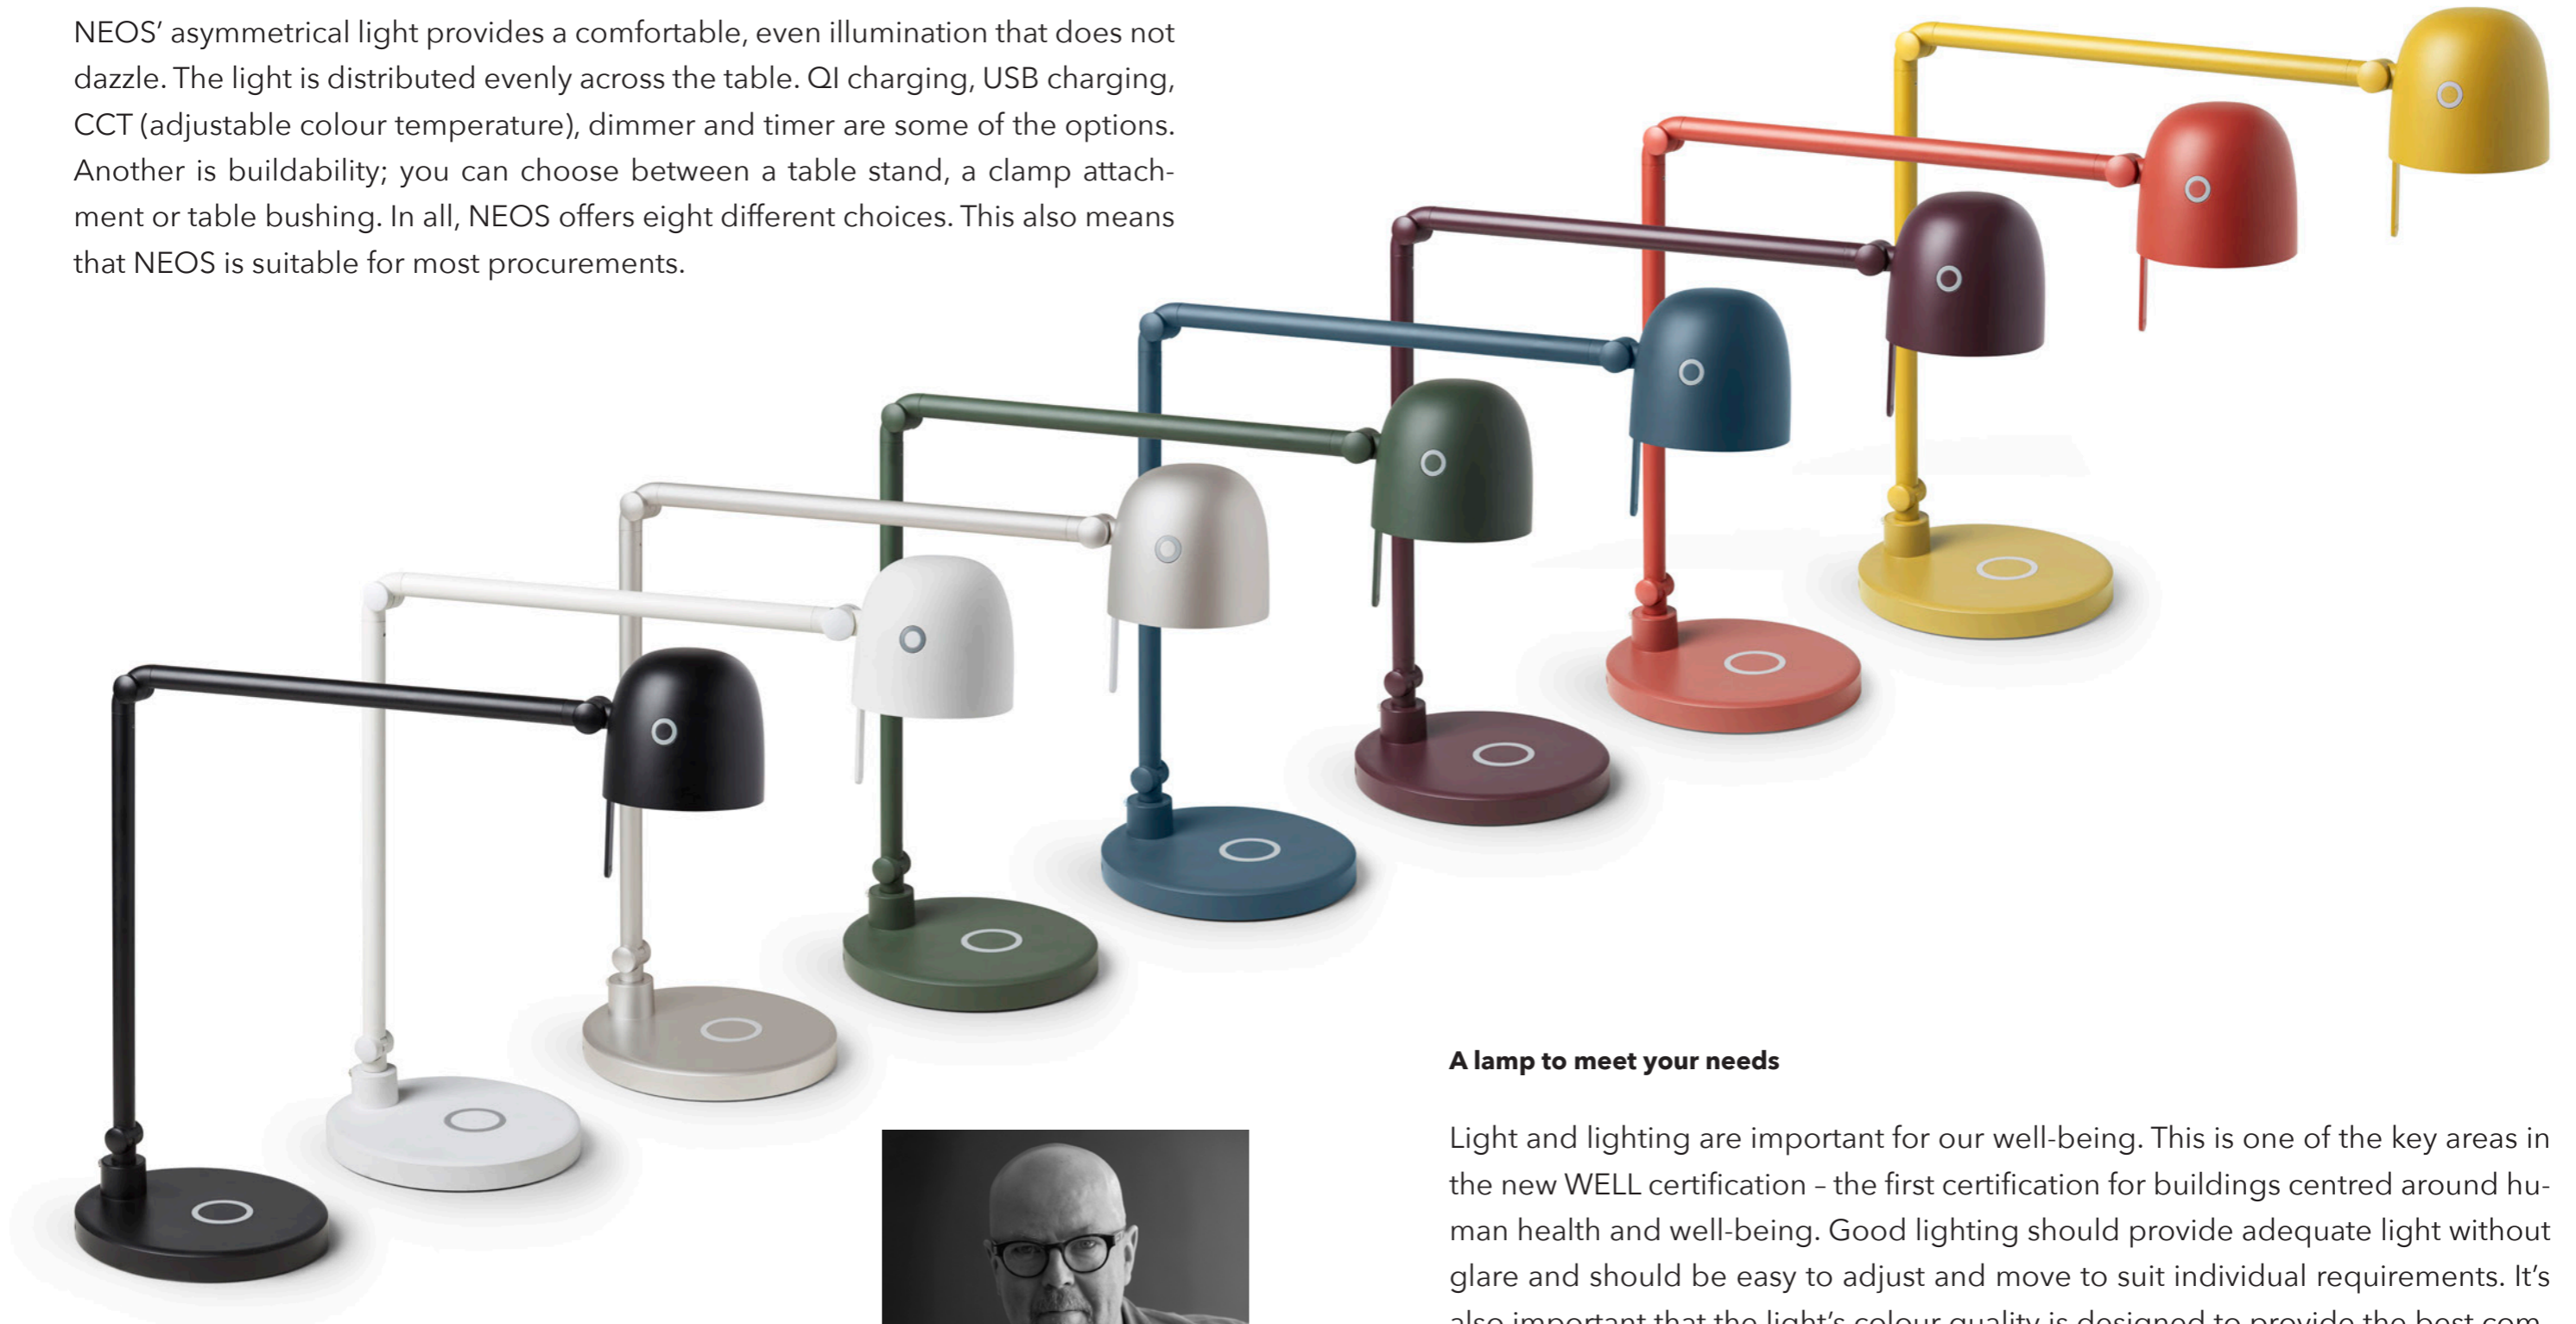

NEOS is an innovative lamp concept. We took a peek at the automotive industry and were inspired by the idea of equipping a lamp with precisely the functions the customer wants. A lamp that is at once both classic and innovative, in a durable design but still with its very own expression. A lamp that stands proud. Whose materials have the least possible impact on the environment, and which does not come with parts that will never be used. A lamp that is flexible, individual and at home in many different settings. And also boasts a durable, classic design in a style inspired by industry and with a distinct retro feel. With a colour spectrum that provides many possibilities.

The result was NEOS

NEOS lamp concept is developed in close consultation with our customers that has resulted in the innovative concept whereby users are free to build their own lamp models themselves. NEOS combines design, modern technology and durability. Thanks to its many options, it's not only well suited to the office but also in most interiors and surroundings that place demands on stylish design and functionality. You put together your own lamp based on precisely the functions you want or need.

Design your own lamp

NEOS' asymmetrical light provides a comfortable, even illumination that does not dazzle. The light is distributed evenly across the table. Qi charging, USB charging, CCT (adjustable colour temperature), dimmer and timer are some of the options. Another is buildability; you can choose between a table stand, a clamp attachment or table bushing. In all, NEOS offers eight different choices. This also means that NEOS is suitable for most procurements.

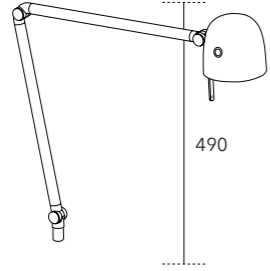

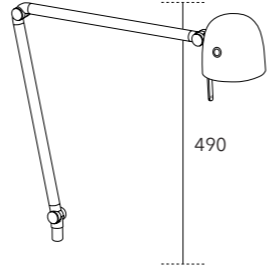

A lamp to meet your needs

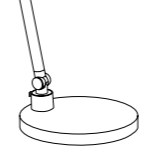

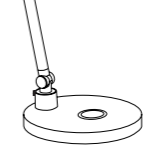

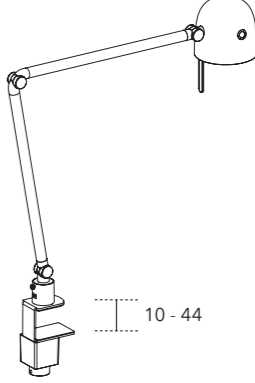

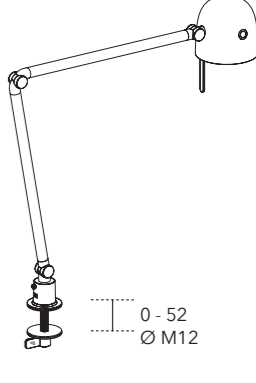

Light and lighting are important for our well-being. This is one of the key areas in the new WELL certification - the first certification for buildings centred around human health and well-being. Good lighting should provide adequate light without glare and should be easy to adjust and move to suit individual requirements. It's also important that the light's colour quality is designed to provide the best comfort and that the lighting is dimmable to allow everyone to adapt luminous intensity to suit their own needs. NEOS also allows you to set the colour temperature. You can adapt the light to the surroundings, to the time of day or to counteract the lack of sunlight during the darker times of year.

Design Peter Mattisson

NEOS Z Arm		
Available combinations		
Model / dimensions	NEOS lamp arm/lamp head Model Z. Arm length 325 + 325 mm Lamp head 108 x 99 mm	
Material	Lamp arm Z: Aluminium, steel, polycarbonate	
Light source	LED COB	
Asymmetric light scattering	No	
Effect	6 W	
Lux (40 cm)	0-1770 Lux	
Delivered lumens output (lm)	560 lumen 95 lumen/watt	
Colour temperature	3100K	
Colour rendering Ra (3000K)	80	
Dimmer	Adjustable luminous intensity in 4 steps	
Timer	2, 4 and 9h	
Light source life expectancy	50 000 h	
IP	IP20	
Energy class	Class F	
Colour	Colour	Art. no.
Arm	White	775121
	Black	775101
	Sandstone Grey	775111

NEOS X Arm		
Available combinations		
Model / dimensions	NEOS lamp arm/lamp head Model X. Arm length 325 + 325 mm Lamp head 108 x 99 mm	
Material	Lamp arm X: Aluminium, steel, polycarbonate	
Light source	LED	
Asymmetric light scattering	Yes	
Effect	6 W	
Lux (40 cm)	0-1300 Lux	
Delivered lumens output (lm)	560 lm 85 lumen/watt	
Colour temperature	3000-6500K	
Colour rendering Ra (3000K)	90	
Dimmer	Adjustable luminous intensity in 4 steps	
Timer	2, 4 and 9h	
Light source life expectancy	50 000 h	
IP	IP20	
Energy class	Class F	
Colour	Colour	Art. no.
Arm	White	775120
	Black	775100
	Forest Green	775160
	Sunset Gold	775177
